DETAILED ACTION

Continued Prosecution Application

1. The request filed on 12/14/2001 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/094,052 is acceptable and a CPA has been established. An action on the CPA follows.

Response to Amendment

2. The present Office action is made in response to the Amendment (Paper No. 24) filed by applicant on 12/14/2001. It is noted that applicant has added a new set of claims 13-15 into the present application. As a result the present application now contains claims 1-5, 7-9 and 11-15. Claims 6 and 10 were canceled by applicant in the Amendment (Paper No. 15) filed on 02/08/2001.

Election/Restrictions

3. Claim 8 and its dependent claims (9, 13, 14)/8 are generic to a plurality of disclosed patentably distinct species comprising: species (a) directs to the use of a plurality of concentric circular vanes wherein the first ends of the vanes are spaced apart from each other at a different distance than the second ends of the vanes are spaced apart from each other. This species is readable on present claims 1-5, 7, 11 and 15; and species (b) directs to the use of a plurality of concentric circular vanes having a central vane and a plurality of outer vanes being nested concentrically about the central vane wherein the outer vanes have one fixed angle (see specification at page 6 and figure 13). This species is readable on present claim 12. Applicant is required under 35

Art Unit: 2872

U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to Lisa Swiszc Hazzard on 01/02/2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thong Q. Nguyen whose telephone number is 703 308 4814. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cassandra Spyrou can be reached on 703 308 1687. The fax phone numbers for the organization where this application or proceeding is assigned are 703 308 7724 for regular communications and 703 308 7724 for After Final communications.
